

## *Supreme Temple Membership & Public Relations*

### *Encouragement*

Have you heard this adage? The past cannot be changed – look forward! That is why cars have a small rear view mirror and a big windshield. Look ahead for the Nile, think about what you can do to make a difference.

Yes, your opinions matter! Everyone has an opinion and, you know, they're free. Make sure your opinion is on a positive note. Positive thoughts create positive things! Share your thoughts and opinions with members of the Nile. The more people working together on an idea, the better the results.

Everyone's journey is different. We are all facing some battle. Remember that when you judge someone. Is everything perfect in your life? If yes, I want to meet you!

You only fail if you quit. We cannot succeed if we quit. Think about what we can do to succeed. You can make a difference!

Happiness is found within. If you are happy, it shows in your face, in your actions, and how you treat other people. Treat others as you want to be treated!

Kindness is free, be kind to everyone you know and everyone that you meet. Tell them about the Nile. You might find someone who is eligible to be a member!

What goes around comes around. This saying has been around a long time. If you are over 30, you know it's true. Do good and good will come to you!

Things always get better with time. We are constantly improving. Technology is the future. It makes our lives easier. How can we improve the Nile? Think about it! One idea or suggestion can make a difference. Share your suggestion!

Overthinking will lead to sadness. How many meetings do you have to have to have a successful meeting? Are you meeting about the meetings?

Holding a grudge does not make you stronger. It makes you bitter. Forgiving does not make you weak. It sets you free. Think about it.

Judgements are a confession of character.

Smiles are contagious. If you see someone without one, give them yours!

Make a difference. Planning is necessary. Be the one that starts a new activity in your Temple. Nile members know that retention is an ongoing process. Focus on retaining members. Everyone who is a member of your Temple is on the Membership Committee.
